

Ninth Round Student Report a Project Essay Competition February – March 2020

Report on Abandoned Projects/Poorly Done Projects

Name: Farida Haruna Bello
Institution: Kano State Polytechnic
Department: Library and Information Science
School Reg. No: DIP/LIS/16/0095
Level of Student: II
Project Title: Poorly Done Naibawa to Karkasara Road
Project Location: Naibawa Yanlemo to Karkasara Behind AKTH Kano
Project Start Year: 2008
Project Abandoned Year: 2011
Level of Completion of the Project: 100%

The Naibawa to Karkasara Road is a very important road because it link to so many places in Kano and considering the length of the road is also something to look at, this road was constructed during the tenure of Mallam Ibrahim Shekarau when he was a Kano State Governor. The road started from Naibawa link to Naibawa ‘Yan Lemo and Span to Darmanawa to Karkasara (Aminu Kano Teaching Hospital (AKTH)) and end at Court Road/AKTH Junction.

Travelling have become difficult on the road because of too many potholes and in some point the asphalt was completely wash away by water. Thing become even worst during rainy season when people are force to use alternate roads, only people in the area are using the road to get access to their homes, because they don’t have any alternatives.

When a sick person was carried on the road, because they reach hospital his situation will worsen because of the bad nature of the road. This government, the

government of Governor Abdullahi Umar Ganduje should do the needful to come to an aid of the people of the area, by rehabilitating the road and make the life of the people in the area, and Kano people easier.

Thank you

Farida Haruna Bello
